Comments

(Set forth by above question #, if applicable. Use "Additional Comments" Sheet, if needed)

File #: 95-246669			
#1: With microscopic hair comparison, even with the best n-	otes, there is no way	to determine	the comparison
was performed correctly.			
#2: The examination results set forth in the laboratory repor	t are supported by th	e bench notes	, but the
documentation is marginally adequate. The notes are not date	ted or initialed and a	re in pencil. P	Q uses
abbreviations to indicate the microscopic characteristics of t	he hair. These abbre	viations are d	ifficult to interpre
